

BRUSSELS

12th UIC ERTMS WORLD CONFERENCE 2016

“ERTMS – Managing long term safety investment in a rapidly changing world”

UIC, the International Union of Railways, together with INFRABEL, is pleased to organise the 12th UIC ERTMS World Conference in Brussels.

The 12th UIC ERTMS World Conference, “UIC ERTMS 2016”, following the successful previous editions in Istanbul (2014) and Stockholm (2012), is due to take place at “Square – Brussels meeting Centre”, an attractive location in the centre of Brussels city, prized for its position and practicality, situated in the cultural quarter of Brussels in front of the Central Station, with easy access to train connections and accommodation.

During the 2016 ERTMS World Conference, the railways and supply industry will come together to showcase the latest achievements of ERTMS and prove their commitment to further development and progress. The technical exhibition will convincingly demonstrate the supply potential and the application of leading technologies within the ERTMS concept.

More information to follow soon regarding the exhibition and sponsoring possibilities.

The technical visit, organised by the host of the conference INFRABEL, will take place on 29 February 2016.

**29 February
2 March 2016**

The main structure of the conference for 1 and 2 March 2016 will be as follows:
